

LifeHub

Cloud Native NG 9-1-1 Call Handling

For years, Intrado has been the gold standard for 9-1-1 solutions. Now we take 40+ years of experience with 9-1-1 to bring you LifeHub, our cloud native, browser-based call handling solution for public safety answering points (PSAPs) and Emergency Call Centers (ECCs).

If you are running a PSAP or an ECC, you know you have choices. As you look at moving forward your call handling requirements should probably include:

- Modern, streamlined user experience for call takers, supports both map-centric and activity-centric views
- NG 9-1-1 Support
- ESInet Interoperability and Compatibility
- NENA I3 Compatibility

Intrado LifeHub is a solid foundation for i3 compliant, NG 9-1-1 applications, allowing PSAPs of any size to easily transition to a flexible, scalable, robust cloud native model.

Progressive, New Features Further Empower Agents

- Cloud hosted scalability and performance
- Fast to deploy – minimal up-front cost or expense
- No maintenance, upgrades or security patches to worry about
- Fully NG 9-1-1 compliant, full ESInet and NENA i3 support
- True geo redundant hosting for maximum uptime and reliability
- Robust, industry leading ECaTS analytics
- Flexible CAD and PBX integration options

LifeHub, Intrado’s latest NG 9-1-1 call handling solution, brings decades of experience with 9-1-1 to a totally new, cloud native platform.

Fast, easy rollout, no ongoing maintenance and no on premises gear or equipment to worry about. Intuitive, browser-based work flows and a slick UI help make it easier for telecommunicators to ramp up quickly.

Data Driven Decisions - Powered by ECaTS Insights

Get the most out of your PSAP call handling investment by including the industry's leading analytics and insights package, Intrado ECaTS. With ESInet/i3 support, ECaTS enables you do better understand the operational ebb and flow of traffic to your PSAP. Whether you need Staffing Forecasts, 911 data insights, i3 logging, wireless routing analysis or any of a number of other available reports and features, ECaTS has you covered.

The Cloud Native Future is Here

If you are looking for a call handling solution for your PSAP, you want a solution that can get you going quickly – but one which will also scale easily for the future. LifeHub does both. With its cloud native architecture, LifeHub ensures quick rollout and fast time to value. With a streamlined, web-based UI, users learn quickly. OpEx spending model helps you control costs while cloud hosting provides a smoother upgrade path with none of the ongoing maintenance and patching that on-prem solutions require.
